U.S. Government Provisions and Clauses for Orders under U.S. Government Contracts

1. General

1.1 If an Order is placed at any tier under a Prime Contract awarded by the U.S. Government, additional U.S. Government provisions ("U.S. Government Contract Clauses") shall apply. In the event of a conflict between a provision in this document and Buyer's Standard Terms and Conditions of Purchase, this document shall control to the extent permitted by law. Terms not defined herein shall have the meaning ascribed to them in Buyer's Standard Terms and Conditions of Purchase.

1.2 While Buyer has made every effort to include every potentially applicable U.S. Government Contract Clause in this document, U.S. Government Contract Clauses, the inclusion of which in a subcontract is mandatory under a statute or regulation, shall be considered to be included by operation of law, even if it has been omitted from the Order.

1.3 Supplier shall incorporate the applicable U.S. Government Contract Clauses in each lower-tier subcontract placed in support of this Order.

1.4 Supplier shall indemnify and hold Buyer harmless from and against any cost, price reduction, withholding, offset, penalty, interest, claim, demand, determination of unallowability or unallocability, or any other civil, criminal, or administrative liability, whether arising under statute, regulation, contract or common law, and shall reimburse Buyer for all of its damages and associated costs, including reasonable attorney fees and other expenses, if said liability is attributable to the Supplier or Supplier's subcontractors' failure to comply with the applicable U.S. Government Contract Clauses.

1.5 Notwithstanding any other provisions in this document, Supplier shall comply with, and shall support Buyer's compliance with, any applicable U.S. Government procurement regulations and policies, including (but not limited to) those concerning furnishing and certifying the currency, accuracy, and completeness of cost and pricing data for the Goods/Services. Supplier agrees to furnish cost and pricing data certified as to currency, accuracy and completeness every three (3) years, or as frequently as required by Buyer's Customer. To the extent the prices under the Agreement and/or Order for the Goods/Services are at any time not supported by Supplier's cost or pricing data, Supplier agrees to negotiate fair and reasonable prices for the Goods/Services and to incorporate such prices in the Agreement and/or Order. In no event shall any renegotiated unit price for any of the Goods/Services exceed the unit price incorporated herein for such Goods/Services.

2. Price Reduction for Defective Cost or Pricing Data

The following provisions shall apply to all Orders for which Supplier is required to submit cost or pricing data pursuant to the Truth in Negotiations Act ("the Act"). A "determination" by Buyer's Customer means a final decision of a Government Contracting Officer or the withholding of money, reduction in any cost, price or fee from Buyer by a customer based on an alleged failure of Supplier or its subcontractors to comply with the Act.

2.1 Supplier shall reimburse Buyer for any loss or damage in the event that Buyer's Customer makes a determination pursuant to the clause(s) in, or required to be in, Buyer's Prime Contract related to the Act or its implementing regulations because: (i) Supplier or a subcontractor of Supplier failed to furnish cost or pricing data, including any requested data, that is required under the Act or its implementing regulations; or (ii) Supplier or subcontractor of Supplier furnished cost or pricing data that was not complete, accurate and current as certified, or as required to be certified, in the Supplier's or its subcontractor's certificate of current cost or pricing data.

2.2 The sums paid or payable to Supplier under this Order may be reduced or setoff in the amount by which the sums received or receivable by Buyer from Buyer's Customer (including, but not limited to, the allocable share of Buyer's indirect costs and profit or fee) are reduced based upon such determination.

2.3 If an appealable decision is made by a Contracting Officer of the U.S. Government relating to cost or pricing data required to be submitted, or actually submitted, by Supplier or a subcontractor of Supplier, such decision shall be conclusive upon Supplier, unless Buyer, in its sole discretion, gives Supplier the opportunity to appeal such decision in the name of Buyer. Any such appeal brought by Supplier in the name of Buyer shall be at the sole expense and responsibility of Supplier. If Supplier is given the opportunity to so appeal and elects to do so, Supplier shall, upon Buyer's written request, provide to Buyer advance copies of papers to be filed in such appeal and such other information, consultation and opportunity to participate in the appeal as Buyer may reasonably request. Supplier shall be conclusively bound by any decision of any such Board of Contract Appeals or Federal Court.

3. Inspection of Books and Records

3.1 Supplier agrees that its books, records and facilities, or such parts of its facilities as may be engaged in the performance of this Order, shall at all reasonable times be subject to inspection and audit by Buyer or any authorized representatives of the U.S. Government.

3.2 Supplier hereby grants to Buyer the right to examine its books, records and data which will permit the adequate evaluation of cost and pricing data used to arrive at the price quoted in this Order (including without limitation claims/proposals

submitted pursuant to the Clauses entitled Changes and Termination for Convenience).

3.3 Supplier hereby grants to Buyer the right to conduct audits of Supplier's premises, records, data and documentation pertaining to: quality, inspection and testing of Goods; security and data protection procedures; ethical practices; and, any other requirement or obligation, under this Order.

4. Orders Involving Government Property

4.1 Title to facilities, special test equipment and special tooling acquired, fabricated or procured by Supplier for Buyer under this Order shall pass to and vest in the Government or Buyer (depending on the line item under which it is acquired) when its use in performing this Order commences or when Buyer has paid for it, whichever is earlier, whether or not title previously vested in the Government or Buyer. The Government shall retain title to government-furnished property.

4.2 If this Order contains a provision directing Supplier to purchase material from a vendor for which Buyer will reimburse Supplier as a direct item of cost under this Order, title to material purchased from the vendor shall pass to and vest in the Government or Buyer upon the vendor's delivery of such material to Supplier, and title to all other material shall pass to and vest in the Government or Buyer upon: (i) issuance of the material for use in Order performance; (ii) commencement of processing of the material or its use in Order performance; or
(iii) reimbursement of the cost of the material by Buyer, whichever occurs first.

4.3 Supplier shall establish and maintain a system acceptable to the Buyer and the Government and in compliance with FAR Part 45, FAR 52.245-1 and DFARS Part 245 to control, protect, preserve, repair and maintain Government Property. Government Property shall be used only for performing this Order, unless otherwise provided in this Order or approved by the Government.

5. Intellectual Property Under U.S. Government Contracts

Definitions.

5.1 "Computer Software" means computer software as defined in DFARS 252.227-7013(a)(3), or for Prime Contracts with NASA or the DoE, as defined in FAR 52.227-14(a) or such other relevant Government Acquisition Regulation clause as may be incorporated in this Agreement.

5.2 "DoE" means the Department of Energy.

5.3 "Government Acquisition Regulations" means the FAR, DFARS, NASA FAR Supplement and DoE Acquisition Regulation (DEAR) regulations that are incorporated into the Prime Contract and, by incorporation, this Order.

5.4 “Intellectual Property" as used in this Article, means the definition set forth in the Terms & Conditions of Purchase that reference this document as well as Subject Invention, Technical Data, and Computer Software.

5.5 “Invention” means the invention as defined in DFARS 252.227-7038(a), or for Prime Contracts with NASA or the Department of Energy, as defined in FAR 52.227-11(a).

5.6 “NASA” means the National Aeronautics and Space Administration.

5.7 “Practice” means to make, use, sell, offer for sale, import and export Goods that embody the Subject Invention.

5.8 “Subject Invention” means subject invention as defined in DFARS 252.227-7038(a), or for Prime Contracts with NASA or the DoE, as defined in FAR 52.227-11(a).

5.9 “Technical Data” means technical data as defined in DFARS 252.227- 7013(a)(14), or for Prime Contracts with NASA or the DoE, as defined in FAR 52.227-14(a), or such other relevant Government Acquisition Regulation clause as may be incorporated in this Agreement.

5.10 “Unlimited Rights” means unlimited rights as defined in DFARS 252.227-7013(a)(15), -7014(a)(15) and -7018(a)(20), or for Prime Contracts with NASA or the DoE, as defined in FAR 52.227-14(a), or such other relevant Government Acquisition Regulation clause as may be incorporated in this Agreement.

5.11 “Use” means the right to use, modify, reproduce, perform, display, release, disclose, compile, integrate, embed and make derivative works of any Technical Data and Computer Software.

Technical Data and Computer Software Ownership and License Rights.

5.12 Supplier acknowledges and agrees that the rights in Technical Data and Computer Software to be granted to the Government will be determined in accordance with the regulations set forth in FAR Part 27 and DFARS Part 227 based upon the specific Technical Data, Computer Software and Goods to be performed under this Order and the assertions of restrictions on use, release or disclosure of Supplier’s Intellectual Property that are provided to Buyer for delivery to the U.S. Government. Supplier grants licenses to the Government as required to be granted in DFARS 252.227-7013, 7014, 7015, 7016 and 7018, or for Prime Contracts with NASA or the DoE in FAR 52.227-14, for Technical Data and Computer Software acquired, created or delivered to Buyer in the performance of this Order.

5.13 For Technical Data and Computer Software in which the Government has Unlimited Rights, Supplier hereby grants to Buyer an irrevocable, non-exclusive, paid-up, worldwide license, with the right to grant sublicenses, to Use, including

the right to make or have made, such Supplier's Technical Data and Computer Software for any purpose whatsoever, and to have or authorize others to do so.

5.14 Except as provided above, Supplier hereby grants to Buyer an irrevocable, non-exclusive, paid-up, worldwide, license to sell and Use Supplier's Technical Data and Computer Software acquired, created or delivered in the performance of this Order (i) to fulfill Buyer's obligations under the Prime Contract; (ii) to disclose to third parties for obtaining government approvals, including airworthiness; and (iii) to satisfy other contract requirements for the same or similar Goods.

5.15 Supplier shall deliver to Buyer all Technical Data and Computer Software needed to fulfill Supplier's obligations in the performance of this Order by the Delivery Date. At Buyer's request, Supplier shall deliver to Buyer all Technical Data and Computer Software acquired or created by Supplier in the performance of this Order, whether or not delivery was required and without additional cost to Buyer.

Patent Ownership and License Rights

5.16 For any Subject Invention, Supplier hereby grants the U.S. Government a non-exclusive, nontransferable, irrevocable, paid-up, worldwide license to Practice or have Practiced the Subject Invention for or on behalf of the U.S. Government. For NASA and DoE Prime Contracts, if required by such Prime Contract, Supplier agrees to assign the Subject Invention to the Government.

5.17 For any Subject Invention in which the Supplier retains ownership, Supplier hereby grants Buyer a non-exclusive, nontransferable, irrevocable, paid-up, worldwide license to Practice and have Practiced the Subject Invention to the extent necessary to fulfill Buyer's obligations under the Prime Contract, as well as for any other purpose.

5.18 Supplier acknowledges the Government invention reporting requirements under the applicable Government Acquisition Regulations and hereby agrees to report all Subject Inventions directly to the Government in accordance with these sections. Supplier shall submit to Buyer a copy of the Government invention reporting letter, without including detailed invention disclosure information.

General Intellectual Property

5.19 Supplier represents and warrants that Supplier has sufficient rights in all Intellectual Property that Supplier uses or transfers to Buyer in connection with this Order to allow Supplier to lawfully comply with this Order. If, in the performance of this Order, Supplier incorporates third party Intellectual Property into the Goods, Supplier shall obtain for the Government and the Buyer license rights equivalent to those granted by Supplier herein.

5.20 Except as expressly authorized herein, nothing in this Order shall be construed as Buyer granting Supplier a license in or any right to use any of Buyer's Intellectual Property other than in the performance of work under this Order.

Data Assertions and Markings

5.21 Supplier shall properly identify and assert the Supplier's rights in Technical Data and Computer Software delivered to the Government with other than Unlimited Rights in conformance with the applicable Government Acquisition Regulations. For assertions made subsequent to the effective date of this Order, the Supplier shall describe why the assertion is an inadvertent omission or new information before the Buyer will submit such assertions to the Government. Supplier shall properly mark all Technical Data and Computer Software that Supplier delivers to the Buyer in connection with this Order. Supplier represents and warrants that it has written procedures and maintains records sufficiently to justify the validity of all restrictive markings.

5.22 If the Supplier's assertions do not comply with the applicable Government Acquisition Regulations, the Government rejects the Supplier's assertions, or the Supplier does not correctly mark Technical Data or Computer Software, the Buyer assumes no responsibility or liability for any loss of rights by the Supplier. Supplier is responsible for ensuring that markings and assertions are consistent. If the markings and the assertions are inconsistent, Buyer may submit such inconsistently marked Technical Data or Computer Software to the Government, and the Supplier assumes the risk of loss of rights. In the event the Government rejects the Supplier assertions, Supplier agrees to work diligently with the Buyer to immediately correct such rejections such that there is no negative impact to Buyer's delivery obligations under the Prime Contract.

Patent Indemnification

5.23 To the extent that the Prime Contract includes the Authorization and Consent provision under FAR 52.227-1, the Government shall authorize and consent to the Supplier's use and manufacture of any invention described in a United States patent in accordance with the Prime Contract. If the Government has assumed liability for U.S. patent infringement under the Prime Contract, Supplier is relieved of its obligations for such U.S. patent infringement under the Section of the BRM Terms & Conditions of Purchase entitled "PATENT INFRINGEMENT", but only to the extent such liability is indemnified by the Government.

5.24 If the Prime Contract includes the Patent Indemnification provision under FAR 52.227-3, and if the Buyer's liability to the Government is for the infringement of a

United States patent related to the Goods, the Supplier shall indemnify the Buyer under the same provision provided for in FAR 52.227-3 which is incorporated herein by reference, except that the terms “Contractor”, “Government”, “contract” and “Contracting Officer” shall be replaced by “Supplier”, “Buyer”, “Order” and “Buyer” respectively.

6. Supplier Changes to Specifications/U.S. Government Inspection

Goods manufactured to Supplier’s Specifications require prior Buyer's written approval for any variations. Goods manufactured to Buyer or Buyer’s customer furnished Specifications require prior Buyer's written approval for any variations to Specifications. When U.S. Government Inspection at Supplier’s facility appears in the inspection block of this Order, the following paragraph applies: U.S. Government inspection is required prior to shipment from Supplier’s facility. Upon receipt of this Order, Supplier shall promptly notify and furnish a copy of the Order to the U.S. Government representative normally servicing Supplier’s facility so that the U.S. Government inspection can be appropriately planned. If a U.S. Government representative does not service Supplier’s facility, Supplier shall contact the nearest Defense Contract Management Agency (“DCMA”) office to plan the inspection. If Supplier cannot locate the DCMA office, Supplier shall notify Buyer immediately.

7. U.S. Government Contract Clauses Incorporated by Reference

7.1 For covered subcontracts:

This contractor and subcontractor shall abide by the requirements of 41 CFR §§ 60-1.4(a), -1.4(b), -300.5(a), and -741.5(a). These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities, and prohibit discrimination against all individuals based on their race, color, religion, sex, sexual orientation, gender identity or national origin. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability or veteran status. These regulations also prohibit covered prime contractors and subcontractors from discharging or in any other manner discriminating against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant, except as otherwise set forth in CFR § 60-1.4(a)(3).

This contractor and subcontractor shall abide by the employee notice requirements set forth in 29 C.F.R. Part 471, Appendix A to Subpart A.

7.2 The clauses listed below are incorporated by reference herein and in this Order, as applicable, with the same force and effect as if they were given full text and

notwithstanding the requirements of FAR 52.102. If there is a conflict with or addition to a clause in effect on the Order date and a clause of the Prime Contract, the Prime Contract clause shall govern. The full text of these clauses can be accessed on the Internet at http://farsite.hill.af.mil/ and http://www.acq.osd.mil/dpap/sitemap.html

7.3 The clauses listed below may require the submission of certifications and representations. When requested by Buyer, Supplier shall furnish any certification or representation that Buyer determines is necessary for compliance with such requirements.

7.4 Whenever necessary to make the context of the clauses applicable to this Order, the term “Contractor” shall mean Supplier, the term “Contract” shall mean this Order, and the term “Government”, “Contracting Officer” and equivalent phrases shall mean Buyer, except the terms “Government” and “Contracting Officer” do not change: (a) in the phrases, “Government Property”, “Government-Furnished Property”, and “Government-Owned Property”, (b) in the patent clauses incorporated herein, (c) when a right, act, authorization or obligation can be granted or performed only by the Government or the Contracting Officer or a duly authorized representative, (d) when title to property is to be transferred directly to the Government, (e) when access to proprietary financial information or other proprietary data is required except as specifically otherwise provided herein, and (f) where specifically modified herein. All references to the clause entitled “Disputes” and all references to the “Disputes Clause” in any clauses referenced herein are deleted.

7.5 The term “FAR” means the Federal Acquisition Regulation and the term “DFARS” means the Department of Defense Supplement to the Federal Acquisition Regulation as in effect on the date of this Order. The term “NASA” shall mean the U.S. National Aeronautics and Space Administration.

7.6 Clauses marked with a “CI” in the column below titled Applicability are applicable only when the Supplier is furnishing Goods or Services that qualify as a “commercial item” under FAR 2.101. Upon request, Supplier shall provide relevant documentation to support Supplier’s assertion that is Goods or Services satisfy the definition of “commercial items” under FAR 2.101. Further, Suppliers of commercial items agree to all additional clauses in Buyer’s high tier contract necessary for Buyer to satisfy its contractual obligations as they relate to this Order.

7.7 Purchases below the Simplified Acquisition Threshold as defined in FAR Part 2 are not subject to the clauses marked below “SA” in the column titled Applicability.

8. Our suppliers and their multi-tier supply chain provide materials for government rated contracts. BRM would like to ensure all of their suppliers are recognizing the DPAS ratings connected government rated contracts. This DPAS rating should be flowed down to all subcontractors to ensure alignment of priority for each procurement.

It is essential that suppliers comply with the U.S. Government's Defense Priorities and Allocations System (DPAS), 15 CFR 700.

The purpose of DPAS is to assure the timely availability of industrial resources to meet current national defense and emergency preparedness program requirements. The Defense Production Act of 1950 authorized the President to require preferential treatment of national defense programs. Executive Order 12919 put the Department of Commerce in charge of the DPAS program and 15 CFR 700 provided rules for the DPAS program.

Please ensure all tiers of your supply chain have a strong understanding of these DPAS requirements.

Please review the full text of the subject clause (15 Code of Federal Regulations (CFR) Part 700).
